

Services Overview

Four engagements. One commitment to family voice.

01

Family Engagement Audits

A district-wide diagnostic of how minority families actually experience your schools — their participation, perception, and trust — drawing on the same four evaluative criteria validated in our founder's doctoral research.

- Multilingual parent survey design and administration
- Quantitative analysis disaggregated by race, language, and SES
- Narrative findings with verbatim family voice
- Action roadmap by school and by central office function

02

School Climate & Culture Reviews

Structured assessment of climate, culture/fit, and school safety through the experiential lens of the families you serve — surfacing the customs schools normalize without realizing how they read from the outside.

- Site visits and stakeholder listening sessions
- Culture/fit and safety perception scoring
- Cross-school comparative benchmarking
- Principal-level debriefs and recommendations

03

Leadership Coaching

Long-term partnership with principals, district leaders, and boards to turn commitments to fairness into everyday practice — staffing, scheduling, discipline, communication, and family partnership.

- Policy and practice review
- Quarterly leadership coaching cycles
- Board and cabinet facilitation
- Implementation tracking and accountability

Professional Learning

Workshops and multi-session institutes for teachers and school leaders on building genuine relationships with families, understanding opportunity gaps, and creating inclusive school customs.

- Half-day and full-day workshops
- Year-long institute design
- Train-the-trainer cohorts
